BEDROOMS

HOME STUDIES

www.akfittedinteriors.co.uk

Welcome to AK Fitted Interiors

SINCE 1982 WE
HAVE FITTED
OVER 10,000
KITCHENS,
BEDROOMS AND
HOME STUDIES!

"Thank you for all your help...we love our new modern kitchen, so different to what we had before."

Over 35 years providing exceptional quality, value and customer service.

As your local fitted furniture specialist, we aim to provide the perfect balance of innovation, beauty and practicality within each and every project we handle. Our four showrooms across Worcestershire, Warwickshire and the West Midlands provide an extensive and inspirational collection of both modern and traditional furniture.

Trading since 1982, we recognise that the majority of our clients are referred to us by friends and family. Customer service is our priority, from the first point of contact to the day that your installation is completed. We believe that our reputation is the result of a commitment to providing

only the highest standards of design and workmanship combined with excellent communication.

At AK Fitted Interiors, we choose our suppliers very carefully. Highly regarded within the industry, we have established strong relationships with leading British and German furniture brands such as Chippendale, Daval, Siemens and Sheraton.

Over the next few pages, we would like to introduce you to the AK service and a flavour of the way we work. We look forward to designing, delivering and installing your new kitchen bedroom or home office very soon...

"Thanks for your skill and consideration, it certainly shows in the finished kitchen."

Shaker

TIMELESS BEAUTY

Its distinctive square-framed design and timeless appeal makes the Shaker style kitchen a true British classic.

Whether you prefer a traditional look or a more contemporary feel, we know that it's important to create a room that will continue to look elegant for years to come. Our extensive collection of Shaker kitchens fits this brief perfectly and ensures that our designs are available to all budgets.

Choose from British made in-frame cabinets or one piece doors in a tempting variety of sophisticated hand painted colours. Then develop your own style further with a choice of undermount, ceramic or steel sinks, handles, worktops and storage systems. Subtle details such as warm lighting and glass units complete the look.

A COLLECTION OF
TRADITIONAL AND
CONTEMPORARY
CLASSIC STYLES
REFLECTING THE
ESSENCE OF
CRAFTSMANSHIP,
BEAUTY AND
VERSATILITY.

"We were of course delighted with the way we were treated during the fitting of all 3 of our kitchens."

"The whole process from start to finish was enjoyable and we thank you so much for all your help and guidance."

OUR MODERN
KITCHENS
SHOWCASE
THE PERFECT
BALANCE
OF FORM,
FUNCTION AND
TECHNOLOGY.

"AK's designer was the only one that understood what we were looking for."

Modern

MODERN AESTHETIC

With handleless designs, the essential becomes invisible. Plain, generously designed fronts, imaginative materials and leading technology are the trademarks of this progressive kitchen architecture. Expect streamlined, sleek lines, often in minimalist white but also increasingly reflecting a darker colour palette. Details such as sliding doors, hidden drawers and ingenious storage solutions enable you to retain an uncluttered space.

Kitchen technology is also a key feature of our modern styles. Automatic lighting, built in Bluetooth speakers and smart appliances can be integrated into your new project.

ISLANDS

Kitchen islands provide a multifunctional space that can be used by the whole family. Whether it's cooking, working or dining, islands perfectly reflect the sociable aspect of the kitchen and work particularly well in open plan settings. Speak to your designer about the different options available to you.

"You have transformed our kitchen... your design has maximised the available area and incorporated everything we asked to be included."

Utility and Boot Rooms

Utility and boot rooms are often compact; our experienced designers know that making the most of the available space is a must.

store taller items such as mops, brooms and vacuum cleaners. Washing machines and tumble dryers can be concealed behind doors and positioned off the floor for ease of use.

UTILITY

Utility rooms provide an ideal space for storing appliances, as well as a separate area for organising laundry. They are increasingly seen as an essential part of the modern family home.

Our projects often include larger sinks (ideal for soaking clothes and washing boots) and floor to ceiling cabinets to

BOOT ROOM

Whether combined with a utility room, or creating a stand-alone space, having additional storage can prove invaluable. Boot rooms offer a home for muddy boots, outdoor clothing, pet accessories and garden items. Your designer will create a space that works for all members of the family.

Our bespoke fitted furniture features built-in benches with lift up storage, a mix of open and closed shelving, and peg rails.

ORGANISE YOUR HOME WITH INTELLIGENT STORAGE SOLUTIONS.

"Without exception, everyone who came to the house was professional, friendly and considerate to our needs."

A BEDROOM SHOULD BE A PLACE WHERE YOU CAN RELAX IN COMPLETE COMFORT, GETTING AWAY FROM IT ALL AT THE END OF A LONG DAY, OR A ROOM WHERE YOU CAN INVITE GUESTS TO STAY, KNOWING THEY HAVE EVERYTHING THEY NEED.

Bedrooms

SPACE SOLUTIONS

Whether it's a straight run of fitted wardrobes or a walk-in dressing room, our bespoke furniture allows you to create the bedroom of your dreams.

Our innovative and timeless designs allow you to have what you want rather than what is off the shelf, providing made to measure solutions that maximise your space. Awkward rooms are our speciality! We are experienced at working with

sloping ceilings and unusual alcoves, so that even the largest, highest or tightest spaces can benefit from an exciting makeover.

THE DETAILS

Thoughtfully designed details such as tie and belt pull outs, linen baskets and divider drawers will give your clothing, accessories and jewellery the care they deserve.

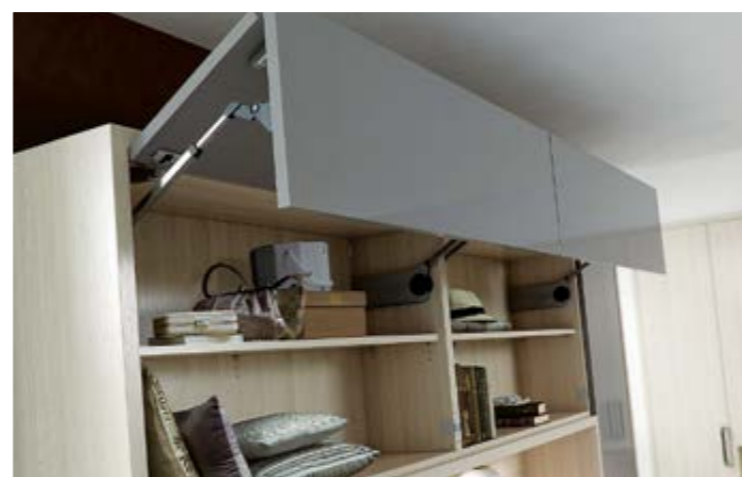

Under cabinet LED lighting creates an ambient mood, and by using

i-lite, the lightweight panel solution, wires and cables are hidden with ease. Even our new i-Pod docking station can be integrated seamlessly into i-lite, opening up a world of new design possibilities.

INTELLIGENT DESIGN

Large bi-folding doors create plenty of storage above the bed and are fitted with Servo-drive by Blum. These easy to access units open with a simple touch thanks to an electric motor which removes the need for handles.

"Absolutely love my new bedroom, looks beautiful and the guys did a great job fitting it."

"Nothing phased your team and we are absolutely delighted with the end result."

Home Studies

With many employers now offering flexible working, home studies are becoming a more common feature of the family home.

The expertise we've gained from installing kitchens and bedrooms enables us to create home studies in spaces from box rooms to barn conversions. We supply and install British (Crown and Daval) manufactured, made to measure furniture that makes the most use of the area, enabling you to find things quickly and work efficiently.

Fitted cabinets and shelving can be combined with free standing furniture to adapt to your changing needs. Lighting requirements and cable management are carefully considered by your designer who will also design according to your specific storage needs.

**SMART AND
STYLISH HOME
OFFICES THAT
WORK AS HARD
AS YOU DO!**

"Many thanks to Nigel for the wonderful job he did in fitting our study."

"The entire project from design and project management through to installation has been seamless."

OUR AIM IS ALWAYS TO SURPASS YOUR EXPECTATIONS WITH A FLEXIBLE SERVICE, OVERSEEING YOUR PROJECT FROM INCEPTION TO COMPLETION.

FROM DESIGN TO REALITY, DISCOVER MORE OF THE AK COMPLETE SERVICE.

Complete Service

FREE HOME SURVEY

Visit one of our four showrooms or call and speak to a designer to arrange a time for them to visit your home. A member of the team will look at the house, its age, the room and the space available. And we will listen to you – what you need, how you use the room and what you want from the finished project. What we will never do is pressure sell to you in your home.

DESIGN AND PLANNING

The information from the home visit is taken back to the studio, where the design concept is produced. Very often, your designer will prepare more than one option, so that you can consider different looks for your room. A meeting is subsequently arranged to view the

design proposal: a photo-quality image which enables you to envisage the finished project. Details such as finishes, handles and appliances can be chosen with the guidance of our experienced team.

PROFESSIONAL INSTALLATION

Once you confirm that you wish to proceed, an initial deposit will be required. We then agree a convenient time to start your project. Old kitchens, bedrooms and home studies can be removed if required and we can arrange any other necessary building work. We take care of the whole project including plastering, electrics and tiling, which is carried out by our installation team. At AK Fitted Interiors we are committed to sustainability. Our designs and furniture are highly durable, and we remove waste

responsibly, recycling wherever possible.

AFTER CARE SERVICE

We carry out the work on your room as efficiently as possible and will stay with the project until you are happy with everything. Finally, the balance will be payable in full upon completion. Should you need anything further after the work is complete, we are always available to assist. We have been known to provide after sales service 15 years after the original order!
